The Decrepit Knights. A dispatch from Philadelphia to the New

York Sun says: One of the greatest signs of the decay of the knights of labor is the slowness with which members respond to General Master Workman Powderly's cries for money to help rebuild the once great organization. Prominent knights assert that the present membership is 300,000, but the response to the recent 15-cent assessment asked by Mr. Powderly indicates that this estimate is far too large. It is predicted that the knights will never live beyond next year. In September, 1886, Mr. Powderly sent out an order for a 25 cent assessment upon all mem bers. Its nominal purpose was the estab-lishment of a fund to be set apart for the support of members who were out of employment by reason of a strike or a lockout. It was explained to them that they need never want when they had \$300,000 firmly locked up in the safes in Philadelphia. The fund never reached \$300,000, but did, after six months, reach \$115,000. Mr. Powderly knew well that it never would reach the larger amount, for the reason that the membership then was but 600,000, while he was calculating upon 1,200,000. This fund was turned into the general fund, and helped to keep the general executive board out of the hands of the sheriff at the end of 1887. That's the way all the assessments taken up for a special purpose in the knights of labor go.
A large number of the members are congratulating themselves because they have reaped some good benefit from the assessments. They were enabled to go to General Assembly in Minneapolis. In the poor condition of the finances then not one-half of the men could have gone if their way had not been paid. So far in the Journal of United Labor Mr. Powderly has acknowled the receipt of \$3,000 for his education scheme. It is safe to say, however, judging from the past, that

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value Within the last few days bona fide sales have been made AT PAR.

The GAZETTE, chronologically, is in the eighty-ninth year of its existence and is not only the oldest paper in the State, but, with very few exceptions, in the country. Notwithstanding the fullness of its years, it has kept, and will continue to keep abreast of the times in all that pertains to a news paper, urnishing its readers daily with a perfect mirror of passing events, domestic and foreign. Its facilities for obtaining news as they increase are taken advantage of and used for the benefit of its readers, who are thus kept thoroughly posted as to all that is of interest politically, socially, financially and commercially. Special attention is given to matters concerning the State and its welfare, while its local columns contain all that is of the slightest interest to Alexandria.
